LANGUAGES

- Tamil
- English

SKILLS

- Basics in python
- Basics in Java
- worked with raspberry pi
- Basics in FrontEnd

Education

Bachelor of Technology

*B.S Abdur Rahman Crescent Institute
of Science and Technology
2021- 2025*

SCHOOL EDUCATION

*St . MARYS MATRIC HR . SECONDARY .
SCHOOL , Sriperumbudur 602105*

12th mark - 550/600

10th mark - 437/500

About Me

I am a sincere and dedicated Electronics and Communication engineering student with good academics and communication skills. I am engrossed in microprocessors and embedded system which are the core domains of my course . as I mentioned with my communication skills I can be more effective in team projects and demonstration of the idea that i brought up. I am good at theoretical analysis which contributes to the good design and analytics of my work.

Projects

SMART INDIA HACKATHON 2023

we created a design and idea for a mental health tracking app .

TEMPERATURE AND HUMIDITY SENSOR USING NOD MCU

It was a IOT based sensor system which detects the temperature and humidity in the environment and pushes the information to the cloud using node MCU.

FACE RECOGNITION SYSTEM USING RASPBERRY PI

using the raspberry pi board and python code and a camera interfaced we designed it for detecting and recognizing faces in college canteens and library.

CLONING OF WEBSITES

I DONE CLONING OF WEBSITES USING HTML AND CSS :

GITHUB LINK -

(<https://github.com/Tholkapiyan1560/WEBSITE-CLONING.git>)

Achievements

- I got 2nd prize in ECE got talents for best short film.
- I Participated in smart India hackathon 2023 held in my college.
- Participated in project expo held in My branch.

Projects and other works

- PRECISION SUGARCANE DISEASE DETECTION USING AI AND DRONE IMAGERY .
- Developed an AI-powered solution leveraging deep learning and drone imagery analysis to detect sugarcane diseases with 95% accuracy, covering 5 acres of farmland.
- Generated detailed reports with 80% faster turnaround time, facilitating precise and efficient pesticide application, thus reducing
- chemical usage by 15%.
- I used python flask for website development in this project.
- This is a company Internship Project.
- languages used – python, Html CSS , JavaScript
- project link – GITHUB (<https://github.com/Tholkapiyan1560/sugarcane-crops-disease-detection.git>)

OTHER INTERNSHIPS

- I ALSO DONE OTHER INTERNSHIP TRAINING IN A SOFTWARE COMPANY NAMED TRIPLE M SOLUTIONS, LOCATED IN VELACHERY.
- THE COMPANY IS BASICALLY ABOUT FULL STACK DEVELOPMENT.
- I BASICALLY LEARNT ABOUT PYTHON, HTML AND PYTHON FLASK FOR WEB PAGE DEVELOPMENT.
- PROJECT LINK – GITHUB(<https://github.com/Tholkapiyan1560/CHILD---STORY-TELLING-SYSTEM.git>)

SOME OTHER ACHIEVEMENTS

- I ALSO DONE SOME OTHER WORKS FOR MY DEPARTMENT AS A EVENT CO ORDINATOR I HELPED IN ORGANISING EVENTS DURING OUR DEPARTMENT'S SYMPOSIUM.
- I ALSO PARTICIPATED IN OUR DEPARTMENT'S PROJECT EXPO IN MY 2ND AND 3RD YEAR AND GOT CERTIFICATES .

HOBBIES

- I love to read books.
- I enjoy drawing.
- I'm a gym freak.
