OBJECTIVE

Procurement professional with hands-on experience in SAP-based procurement, customer coordination, vendor management, and supply chain operations within a manufacturing environment. Skilled in SAP S/4HANA Materials Management (MM) and seeking to contribute as an SAP MM Functional Consultant by delivering efficient procurement solutions and optimizing business processes.

EXPERIENCE

• Foxconn Hon Hai Technology India Mega Development Pvt. Ltd.

07-2025 - Present

Procurement Executive

- Executed end-to-end procurement activities for manufacturing and operational materials using SAP, ensuring timely material availability.
- Created and processed Purchase Requisitions (PRs) and Purchase Orders (POs) while maintaining procurement data accuracy in SAP.
- Coordinated with vendors on quotations, lead times, delivery schedules, and order confirmations to support uninterrupted production.
- Collaborated with Planning, Production, Warehouse, Logistics, Quality, and Finance teams to ensure seamless material flow and procurement execution.
- Tracked inventory levels, material consumption, open purchase orders, and supplier commitments to support demand planning and avoid material shortages.
- Supported customer procurement-related requirements by providing timely updates on material availability, purchase status, and project requirements in coordination with internal teams. Prepared procurement reports, monitored GRN and invoice status, and maintained procurement documentation to ensure process compliance.
- Supported cost optimization and continuous procurement improvements through supplier evaluation, sourcing analysis, and effective cross-functional coordination.

Key Exposure:

SAP Procurement | PR & PO Processing | Vendor Management | Customer Handling | Material Planning | Inventory Management

• Vasthak Pvt Ltd

25-12-2024- 15-

03-2025

Intern

Research Intern

- Examining a comprehensive image database of sugarcane plants to identify symptoms of Pokka Boeng
- Data annotation – Annotating images to improve performance of Machine learning databases
- Website development – Developing a model website to stitch images into a analytical data for disease detection
- Research and reporting regarding the disease and image analysis

EDUCATION

• Crescent University

B. Tech ECE

◦ GPA: 8.18/10.00

08-2021- 05-2025

vandalur, Chennai

• St. Mary's Matric Hr. Sec. School

Secondary Education

◦ 12th - 550 / 600 – 90.17 %

◦ 10th - 437 / 500 – 86.4%

04 - 2021

PROJECTS

- SAP S/4HANA MM – Procurement Process Implementation (In Progress) 07-2026

 - Designing and configuring an end-to-end procurement lifecycle in SAP S/4HANA MM.
 - Covering procurement scenarios including Material Master, Vendor Master, Purchase Requisition (PR), Request for Quotation (RFQ), Purchase Order (PO), Goods Receipt (GR), and Invoice Verification (IV).
 - Developing a real-world manufacturing procurement scenario with organizational structure, master data, and business process documentation.
 - Expected completion: July 2026. Project Link- GITHUB (<https://github.com/Tholkapiyan1560/SAP-S4HANA-MM-Greenfield-Implementation/tree/main>)
- PRECISION SUGARCANE DISEASE DETECTION USING AI AND DRONE IMAGERY 03-2025

 - Developed an AI-powered solution leveraging deep learning and drone imagery analysis to detect sugarcane diseases with 95% accuracy, covering 5 acres of farmland.
 - Generated detailed reports with 80% faster turnaround time, facilitating precise and efficient pesticide application, thus reducing chemical usage by 15%
 - used python flask for website development in this project.
 - Project link - GITHUB (<https://github.com/Tholkapiyan1560/sugarcane-crops-disease-detection.git>)

CERTIFICATION

- SAP S/4HANA Sourcing & Procurement (MM) – Tech Maax, 2026

CORE SKILLS

- SAP S/4HANA Procurement (PR & PO)
- Vendor Management
- Customer Handling
- Inventory Management
- Demand Planning
- Cost Tracking
- Supply Chain Operations
- Microsoft Excel | Microsoft PowerPoint

PROFESSIONAL HIGHLIGHTS

- 1+ year of procurement experience in a manufacturing environment
- Hands-on experience with SAP-based procurement and PR/PO processing
- Customer coordination and cross-functional stakeholder management
- SAP S/4HANA MM trained with an ongoing Greenfield implementation project
